Olympic Fly Fishers of Edmonds 2011 Conservation Auction & Banquet

Camaraderie and the Pursuit of Happiness with dry flies, wet flies, nymphs and streamers ...

Add in friends, loved ones, colleagues, holiday cheer, fine dining, great wines and record setting auction proceeds, that's what its all about: a great club, fantastic banquet and auction team effort, generous giving of valued outfitters and members, and valued support of our community and special guests. All for the benefit of Olympic Fly Fishers of Edmonds funded conservation projects.

An Invitation to Support Conservation

In every corner of the American West is a stream, wetland or estuary that cries out for protection, because it is habitat for endangered fish and wildlife, because it is the scenic centerpiece of a community, or because it is a favorite haunt of boaters, anglers, and hikers. At Olympic Fly Fishers of Edmonds, we believe in supporting groups that help answer those calls for help through conservation, stewardship, education and land acquisition.

Please join us in our on-going support of important local and regional conservation work. Your help is needed now more than ever. Come to the Conservation Auction, the tables are set for celebrating a year of great sport fly fishing and for exceeding our goal of doubling our conservation auction proceeds.

Key Beneficiaries of Olympic Fly Fishers of Edmonds 2010 Conservation Auction Funded Donations

Western Rivers Conservancy

Western Rivers Conservancy protects outstanding river ecosystems in the western United States. They acquire land to conserve critical habitat, provide public access for compatible use and enjoyment, and cooperate with other agencies and organizations to secure the health of whole ecosystems. <http://www.westernrivers.org>

Coastal Conservation Association of Washington

CCA Washington is a statewide nonprofit advocacy group for salmon, steelhead and other marine fish. Their goal is to shine a light on the plight of our precious marine resources, and to ensure both recovery and abundance for future generations. <http://www.ccapnw.org/home>

Long Live the Kings

LLTK helps those who make decisions about salmon to be successful. They pursue projects and partnerships that compel coordinated, scientifically-credible, and transparent changes to harvest, hatchery, and habitat management to protect and restore wild salmon. <http://www.lltk.org/>

Stillwaters Environmental Center

Stillwaters is an environmental education center in the Carpenter Creek watershed of Kingston, Washington. Recent work of Stillwaters includes the spearheading of the Stillwaters Fish Passage bridge construction within the Carpenter Creek Estuary Restoration Project. <http://www.stillwatersenvironmentalcenter.org>
